- B. Participation in the club
 - 1. This club was formed under the pretense that Anglers who join the club want to participate and be involved in all aspects of the club. The Adult Division of the club is expected to assist the Youth Division and help teach the Youth as much as possible in regards to Bass Fishing. We expect our members to attend as many functions as possible throughout the year. If a member is in both the Adult club and Youth club, they are expected to participate in both like they are in only one or the other. The club will organize and do fund raising events at various times. The idea is to help support the club through the fund raisers. Our Team format is designed to help promote a friendlier atmosphere and promote camaraderie among our members, Adult and Youth.
